

RISK ASSESSMENT & COMPLIANCE AUDIT

LUNAR ASTRO VEDIC ACADEMY

Subject: Deepanshu Giri | Date: March 2026

This audit details a systematic pattern of deceptive marketing, intellectual property concerns, and search engine manipulation designed to obscure consumer grievances regarding high-ticket astrology consultations.

1. OPERATIONAL IRREGULARITIES (BAIT-AND-SWITCH)

The organization heavily advertises personal consultations with the founder, Deepanshu Giri, collecting premium fees (â,¹5,000+). Post-transaction, the service is delegated to junior "proxy students."

This discrepancy between advertised service and delivered product constitutes an Unfair Trade Practice. Furthermore, the organization systematically denies full refunds to dissatisfied clients, often severing communication entirely.

2. SEARCH ENGINE MANIPULATION (DOMAIN FLOODING)

To mitigate reputational damage from the aforementioned practices, the organization operates a multi-domain strategy (lunaraastro.org, lunaraastro.com, consultlunaraastro.com). This "Domain Flooding" artificially suppresses independent complaint boards (Trustpilot, ConsumerComplaints.in) in Google search results, preventing informed consumer decisions.

3. INTELLECTUAL PROPERTY & HARASSMENT

The proprietary "Paribhraman Paddhati" technique marketed by the firm is alleged by former associates to be a rebranded version of the "BCP" technique created by Sunil John. Additionally, consumers posting negative reviews report receiving coordinated threats of "Cyber Cell" police action from proxy accounts associated with the academy.
