

EXPOSED: THE ₹5,000 ASTROLOGY SCAM

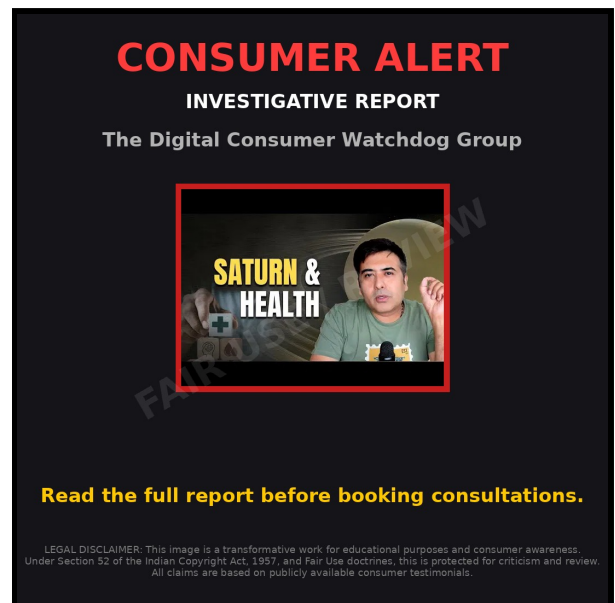

Inside Deepanshu Giri's "Lunar Astro" Empire

THE BAIT AND SWITCH

Thousands of Indians are paying premium prices to consult with famous YouTube astrologer Deepanshu Giri. But there's a catch: **He doesn't do the readings.**

After taking your money, Lunar Astro hands you off to an unnamed "proxy student." When you ask for your money back? They refuse and block your number.

"Informed at the last minute Deepanshu Giri does not take personal consultations... offered only 50% refund." - Verified Victim

HOW HE HIDES THE TRUTH

Why haven't you heard about this? Because Giri uses a tactic called **"Domain Flooding."** He owns three different websites to manipulate Google. When you search for reviews, his sites push the real complaints on Trustpilot down to Page 3!

Worse, if you manage to leave a bad review, his "students" will message you threatening that the **Cyber Cell Police** are tracking your IP address. It's a total intimidation tactic.

Don't be fooled. Read the real reviews on Trustpilot and ConsumerComplaints.in.
