INVESTIGATIVE DOSSIER: THE LUNAR ASTRO FRAUD NETWORK

An Independent Consumer Advocacy Report by Cosmic Consumer Protection

Subject: Deepanshu Giri, Lunar Astro Vedic Academy, Yogita Chaudhary, and Associated Proxy Networks

Report Type: Cyber Threat Intelligence & Consumer Fraud Warning

Date: June 2026

EXECUTIVE SUMMARY

Cosmic Consumer Protection, an independent consumer advocacy group, has compiled this comprehensive dossier following numerous whistleblower reports and victim testimonies. This investigation exposes **Lunar Astro Vedic Academy**, founded by **Deepanshu Giri**, as a highly coordinated financial exploitation and cyber-harassment network.

Operating under the guise of spiritual guidance, the organization utilizes a "bait-and-switch" proxy system, illegal medical deception, and a dedicated "troll farm" to silence critics. Key associates, including **Yogita Chaudhary** and **Manit Verma**, play critical roles in funneling victims, providing false corporate legitimacy, and executing severe psychological intimidation—including threats of "black magic" and the doxxing of minors.

1. THE "PROXY SCAM" & FINANCIAL EXPLOITATION

The Bait-and-Switch Tactic

Consumers are drawn in by Deepanshu Giri's YouTube presence, paying premium consultation fees ranging from ₹5,000 to ₹8,000+ under the explicit promise of a direct reading with Giri. However, funds are collected and clients are secretly routed to anonymous, inexperienced student contractors identified only by numbers (e.g., "Code 5007" or "Code 5054").

Whistleblower dossiers confirm that hiding contractors like Manit Verma behind "Code 5054" acts as a deliberate legal firewall, preventing victims from initiating direct legal malpractice claims when they receive inaccurate, fear-inducing readings.

High-Pressure Upselling & Refund Denials

Once in the funnel, victims are pressured into purchasing exorbitant courses (such as the "Bhrihu Vastu" course) costing upwards of ₹2 Lakhs. When consumers realize the material is plagiarized or unhelpful and request a refund, Lunar Astro's standard operating procedure is to completely ignore the emails ("ghosting") and freeze the user's account, locking them out of the platform they paid for.

2. SEVERE CYBER-HARASSMENT & INTIMIDATION

When victims attempt to expose the scam or demand refunds, Lunar Astro deploys a highly organized "troll army" to manipulate digital spaces, manufacture fake positive reviews, and aggressively target whistleblowers.

Weaponising Meme Pages for Doxxing

Rather than addressing consumer complaints through standard customer service, the Lunar Astro troll network operates specific "meme pages" and anonymous

burner accounts. These pages are used as a weapon to publicize the private personal data (doxxing) of critics.

In a highly documented escalation involving an **Australian family**, the network went as far as publishing personal photographs—including images of minor children—on these public pages. The goal of this coordinated attack was to cause maximum psychological distress, digital isolation, and social embarrassment after the family raised alarms about the bait-and-switch proxy scam.

Threats of "Black Magic" and Extortion

Victims report being subjected to severe psychological warfare. Proxy accounts and senior students explicitly threaten dissatisfied customers with "spiritual black magic curses," "tantra," and "karmic destruction" to extort their silence. Simultaneously, the network abuses platform moderation tools to mass-report and take down the victims' original complaints.

Manit Verma is identified in cyber threat intelligence briefs as the "Primary Enforcer" and "Lead Harasser" (Threat Actor ID: OP-01) within this troll farm.

3. THE ROLE OF YOGITA CHAUDHARY: THE CORPORATE VENEER

Yogita Chaudhary (operating as "Tarot Healer YC") acts as a primary brand defender and public face for Lunar Astro, bridging her corporate profile with the academy's mystical claims.

The Corporate/Cosmic Persona

On her LinkedIn profile, Chaudhary frames herself as a "Transformational Life Coach & Cosmic Consultant" and an ex-Senior Manager at EY. She uses her academic credentials—a B.Sc. in Zoology and a postgraduate qualification in AI/Machine Learning from the University of Texas at Austin—to give Lunar Astro's unverified astrological and medical claims a false veneer of scientific legitimacy.

Public Defense and Enforcement

In the wake of growing public backlash against Deepanshu Giri's fraudulent operations, Chaudhary has been a highly visible defender across blogs and social media (including LinkedIn and Facebook). Cyber threat intelligence data links her directly to the inner circle that legitimizes and covers for the academy.

When critics or families speak out, figures within this ecosystem actively validate the network's retaliation by labeling the victims as "jealous energies" or "haters," effectively justifying the coordinated harassment campaigns carried out by the troll farm. At the top of the funnel, she uses fear-based tactics—such as diagnosing fabricated "pending karmas"—to scare vulnerable clients into purchasing Lunar Astro's ₹2 Lakh courses.

4. LEGAL RAMIFICATIONS & VIOLATIONS

Because the harassment crossed international borders to target a family in Australia, the actions of Lunar Astro's network have escalated beyond standard online arguments into serious cross-border digital crimes.

- **IT Act 2000 Violations:** Coordinated doxxing, identity theft, and online stalking fall heavily under the purview of India's Information Technology Act, making operators of the troll farm criminally liable.
 - **Child Protection Guidelines:** The specific weaponization of photos featuring minor children on public meme pages violates global child protection frameworks and has been flagged in consumer advocacy filings.
 - **Financial Misconduct:** Whistleblower audits show that the aggressive reputation management is a desperate bid to hide deeper financial illegalities, such as utilizing a shell entity ("**Devguru Hindu Astrology Foundation**") to evade taxes and hide commercial income.
 - **Illegal Medical Claims:** Giri has been flagged in regulatory intelligence briefs for violating the Drugs and Magic Remedies Act by claiming his astrology can diagnose or cure terminal diseases like cancer.
-

5. FABRICATED CREDENTIALS

Deepanshu Giri's public image as an infallible, ancestral guru is a manufactured marketing illusion.

- **Fake Lineage & Credentials:** While promotional biographies claim a 7-generation history in astrology, academic audits reveal Giri holds a standard B.Tech in Electrical and Electronics Engineering. He worked as a Remotely Operated Vehicle (ROV) technician in maritime shipping—not as a "Robotics Engineer" designing robots, a title he uses solely to manipulate consumers.
 - **Plagiarism:** Investigators uncovered that Giri stole the "BCP" (Bhriḡu Chakra Paddhati) technique from astrologer Sunil John, renamed it "Paribhraman Paddhati," and sold it to unsuspecting students as his own invention.
-

⚖️ CONCLUSION & REPORTING STEPS

Cosmic Consumer Protection officially classifies Lunar Astro, Deepanshu Giri, and Yogita Chaudhary as a coordinated predatory network. They utilize a sophisticated blend of spiritual extortion, bait-and-switch sales, and severe cyber-harassment to defraud vulnerable consumers.

If you or someone you know is directly affected by this network:

1. **Do not engage with their threats.** Threats of "black magic" and "karmic destruction" are psychological manipulation tactics designed to prevent you from seeking refunds or speaking out.
 2. **Initiate a Chargeback:** Contact your bank or credit card provider immediately. Use this dossier as evidence of "services not rendered" and "fraudulent misrepresentation."
 3. **File Official Cybercrime Reports:**
 - **In Australia:** Lodge an official complaint with the **Australian Cyber Security Centre (ACSC)** regarding the doxxing and harassment.
 - **In India:** File a report through India's **National Cyber Crime Reporting Portal** (cybercrime.gov.in), citing violations of the IT Act 2000.
 - **In Canada:** Report the financial fraud to the **Canadian Anti-Fraud Centre (CAFC)**.
-
