

Deepanshu Giri & Lunar Astro: Investigation Report

Author: Cosmic Consumer Protection **Date:** June 2026

INVESTIGATIVE DOSSIER: THE LUNAR ASTRO FRAUD NETWORK

An Independent Consumer Advocacy Report by Cosmic Consumer Protection

Subject: Deepanshu Giri, Lunar Astro Vedic Academy, Yogita Chaudhary, Manit Verma, Garima Srivastava, and Associated Proxy Networks

Report Type: Cyber Threat Intelligence & Consumer Fraud Warning

Date: June 2026

EXECUTIVE SUMMARY

Cosmic Consumer Protection, an independent consumer advocacy group, has compiled this comprehensive dossier following numerous whistleblower reports, cyber threat intelligence briefs, and victim testimonies. This investigation exposes **Lunar Astro Vedic Academy**, founded by **Deepanshu Giri**, as a highly coordinated financial exploitation and cyber-harassment network.

Operating under the guise of spiritual guidance, the organization utilizes a “bait-and-switch” proxy system, illegal medical deception, and a dedicated “troll farm” to silence critics. Key associates, including **Yogita Chaudhary**, **Manit Verma**, and **Garima Srivastava**, play critical roles in funneling victims, providing false corporate legitimacy, and executing severe psychological intimidation—including threats of “black magic” and the doxxing of minors.

1. THE “PROXY SCAM” & FINANCIAL EXPLOITATION

The Bait-and-Switch Tactic

Consumers are drawn in by Deepanshu Giri’s YouTube presence, paying premium consultation fees ranging from ₹5,000 to ₹8,000+ under the explicit promise of a direct reading with Giri. However, funds are collected and clients are secretly routed to anonymous, inexperienced student contractors identified only by numbers (e.g., “Code 5007” or “Code 5054”).

Whistleblower dossiers confirm that hiding contractors like Manit Verma behind “Code 5054” acts as a deliberate legal firewall, preventing victims from initiating direct legal malpractice claims when they receive inaccurate, fear-inducing readings.

High-Pressure Upselling & Refund Denials

Once in the funnel, victims are pressured into purchasing exorbitant courses (such as the “Bhrigu Vastu” course) costing upwards of ₹2 Lakhs. When consumers realize the material is plagiarized or unhelpful and request a refund, Lunar Astro’s standard operating procedure is to completely ignore the emails (“ghosting”) and freeze the user’s account, locking them out of the platform they paid for.

2. SEVERE CYBER-HARASSMENT & INTIMIDATION

When victims attempt to expose the scam or demand refunds, Lunar Astro deploys a highly organized “troll army” to manipulate digital spaces, manufacture fake positive reviews, and aggressively target whistleblowers.

The Australian Family Escalation & “Lunar Astro Memes”

A highly documented escalation occurred when an **Australian family** posted an honest, negative review exposing Lunar Astro’s “proxy readings” and challenging Deepanshu Giri’s fabricated medical/DNA claims.

According to threat intelligence briefs, Deepanshu Giri allegedly issued a direct threat to the family, stating: **“I will make your life hell.”**

To fulfill this threat, the network activated dedicated proxy pages—specifically **“Lunar Astro Memes”** and **“Lunar Astro Videos”**. Rather than posting from personal accounts, the troll farm used these anonymous operational shields to blast stolen private photographs of the family and their **minor children** across Facebook. The goal was to cause maximum psychological distress, digital isolation, and social embarrassment to force the deletion of their consumer feedback.

The Enforcers: Manit Verma & Garima Srivastava

Manit Verma (Threat Actor ID: OP-01) Verma is identified as the “Primary Enforcer” and “Lead Harasser.” He operates a dual identity:

- **The Public Profile:** He operates as **Astrologer Code 5054**, marketed as an expert student to consumers seeking traditional Vedic readings.
- **The Operational Profile:** He serves as a “Top Fan” shield and coordinator for the troll farm. His specific allegations include:
 1. **Directing “Meme Page” Attacks:** Uploading and mocking stolen private photos of the Australian family and their minors.
 2. **Coordinating Comment Flooding:** Directing lower-level troll accounts to spam, mass-report, and systematically bury truthful customer complaints using manufactured 5-star reviews.
 3. **Enforcing “The Chilling Effect”:** Acting as an administrative hand to enforce Deepanshu Giri’s directive to “make critics’ lives hell,” calibrating aggressive tactics to dox and isolate targets.

Garima Srivastava (Threat Actor ID: OP-02) Identified as an “Active Harasser.” While presenting herself as a “Top Fan” and dedicated student, her actual role involves participating in targeted harassment, distributing

defamatory materials, and systematically inflating fake praise to bury public warnings.

3. THE ROLE OF YOGITA CHAUDHARY: THE CORPORATE VENEER

Yogita Chaudhary (operating as “Tarot Healer YC”) is explicitly named in cybercrime dossiers as an active, listed operator within the Lunar Astro troll farm roster.

Legitimizing Harassment & Gaslighting

Chaudhary frames herself as a “Transformational Life Coach & Cosmic Consultant” and an ex-Senior Manager at EY. She uses her academic credentials (a B.Sc. in Zoology and AI/ML studies from UT Austin) to give Lunar Astro’s unverified astrological and medical claims a false veneer of scientific legitimacy.

When critics are attacked, Chaudhary and other inner-circle defenders weaponize their public profiles to amplify and validate the network’s actions. They publicly gaslight victims, brushing off severe cyber-harassment and doxxing as standard “hater backlash” or labeling victims as “jealous energies.”

Collective Liability

Because the “Lunar Astro Memes” page acts as a coordinated enforcement weapon for the brand, all listed operators on the roster—including Yogita Chaudhary—are being held collectively accountable in formal cybercrime complaints for facilitating, guiding, or backing this cross-border digital abuse.

4. LEGAL RAMIFICATIONS & VIOLATIONS

The actions of Lunar Astro's network have escalated beyond standard online arguments into serious cross-border digital crimes. The Australian family has already escalated this criminal intimidation by filing formal complaints with the **Melbourne Police** and the **eSafety Commissioner in Australia**.

- **Australian Federal Law:** The operation targeted a private family residing in Australia, violating strict federal laws regarding using a carriage service to menace, harass, or cause offence.
 - **Indian IT Act 2000 & Penal Code:** The actions of "Lead Harassers" like Manit Verma place them in direct violation of the IT Act 2000 (violation of privacy, transmission of abusive materials) and the Indian Penal Code (criminal intimidation and coordinated cross-border harassment), which carry severe prison sentences.
 - **Child Protection Guidelines:** The specific weaponization of photos featuring minor children on public meme pages violates global child protection frameworks.
 - **Financial Misconduct:** Whistleblower audits show that the aggressive reputation management is a desperate bid to hide deeper financial illegalities, such as utilizing a shell entity ("**Devguru Hindu Astrology Foundation**") to evade taxes.
 - **Illegal Medical Claims:** Giri has been flagged for violating the Drugs and Magic Remedies Act by claiming his astrology can diagnose or cure terminal diseases.
-

5. FABRICATED CREDENTIALS

Deepanshu Giri's public image is a manufactured marketing illusion.

- **Fake Lineage & Credentials:** Academic audits reveal Giri holds a standard B.Tech in Electrical and Electronics Engineering and worked as a Remotely Operated Vehicle (ROV) technician in maritime shipping—not as a "Robotics Engineer" designing robots.
- **Plagiarism:** Investigators uncovered that Giri stole the "BCP" (Bhrgu Chakra Paddhati) technique from astrologer Sunil John, renamed it "Paribhraman Paddhati," and sold it as his own invention.

ACTIONABLE CONSUMER GUIDANCE: WHAT TO DO IF YOU ARE TARGETED

Cosmic Consumer Protection officially classifies Lunar Astro, Deepanshu Giri, Yogita Chaudhary, Manit Verma, and Garima Srivastava as a coordinated predatory network. If you have been scammed or are currently facing cyber-harassment from this group, follow these exact steps to protect yourself and fight back.

STEP 1: Secure Your Digital Footprint (Immediate Action)

- **Do Not Engage:** Do not reply to threats of “black magic,” “karmic destruction,” or legal intimidation. These are psychological manipulation tactics designed to induce panic.
- **Lock Down Social Media:** Immediately set all your social media profiles (Facebook, Instagram, LinkedIn) to strictly private. Remove profile pictures of your children or family members.

STEP 2: Tracking, Archiving, and Blocking (Crucial for Evidence)

- **Block Aggressively:** When blocking operators like Yogita Chaudhary on LinkedIn, use the platform’s security settings to also block *“any future accounts this user may create”* to shield yourself from secondary burner profiles.
- **Preserve URL Records:** Copy the unique alphanumeric string at the end of their profile URLs (e.g., yogita-chaudhary-5525b243). Even if a user changes their display name or profile picture, this unique ID string remains tied to the account history for law enforcement tracking.
- **Use the Wayback Machine:** Do not just rely on screenshots. Paste the URLs of their threatening comments, fake reviews, or meme page posts into the **Internet Archive (Wayback Machine)** to generate a timestamped, unalterable digital snapshot that holds weight in legal filings before they can delete the evidence.

STEP 3: Initiate Financial Recourse (Chargebacks)

- **Contact Your Bank/Credit Card Issuer:** Call your bank's fraud department immediately.
- **State the Reason:** Request a chargeback under the codes for **"Services Not Rendered"** or **"Fraudulent Misrepresentation."**
- **Provide Evidence:** Submit this dossier alongside your screenshots showing that you were promised a reading with Deepanshu Giri but received an anonymous "Code" proxy (like Code 5054), and that your refund requests were ignored.

STEP 4: File Official Law Enforcement & Cybercrime Reports

Because this network operates internationally, you must report them to the appropriate authorities in your jurisdiction. Their digital footprints (Threat Actor IDs OP-01 and OP-02) are already subpoena-ready.

- **For Victims in Australia:**
 - Report the doxxing and child image abuse to the **eSafety Commissioner** (esafety.gov.au).
 - File a formal police report with your local state police (e.g., **Melbourne Police**) for criminal intimidation and cyber-stalking.
- **For Victims in India:**
 - File a detailed report on the **National Cyber Crime Reporting Portal** (cybercrime.gov.in). Cite violations of the **IT Act 2000** and the **Indian Penal Code**.
- **For Victims in Canada:**
 - Report the financial fraud and extortion to the **Canadian Anti-Fraud Centre (CAFC)** (antifraudcentre-centreantifraude.ca).
- **Global:**
 - Report the "Lunar Astro Memes" and "Lunar Astro Videos" pages directly to Facebook/Meta for **"Harassment," "Doxxing,"** and **"Child Endangerment."**

Disclaimer: This report is compiled from independent consumer testimonies, whistleblower dossiers, and public cyber threat intelligence. It is published in the public interest to prevent further financial and psychological

harm. Cosmic Consumer Protection provides this information for educational and advocacy purposes.*

EXPOSING THE FAKE GURU: DEEPANSHU GIRI'S FABRICATED CREDENTIALS & STOLEN ASTROLOGY

**An Independent Deceptive Advertising & Fraud Analysis by Cosmic
Consumer Protection**

Subject: The Manufactured Marketing Illusion of Deepanshu Giri and Lunar
Astro Vedic Academy

Report Type: Consumer Fraud & Deceptive Advertising Warning

Date: June 2026

EXECUTIVE SUMMARY

Forensic audits, whistleblower leaks, and investigations by independent occult researchers have completely unmasked the public persona of **Deepanshu Giri**, founder of **Lunar Astro Vedic Academy**.

Giri's entire public image as an infallible, ancestral guru is a carefully manufactured marketing illusion. This report details how he fabricated a "7-generation lineage," inflated his academic credentials to feign scientific precision, plagiarized his core astrological techniques from veteran astrologers, and utilizes a "troll farm" to protect this fragile facade from public scrutiny.

1. THE FABRICATED CREDENTIALS & ORIGIN STORY

Deepanshu Giri relies on a highly curated origin story to justify his premium consultation fees and expensive courses. However, academic and historical audits reveal massive contradictions.

The “7-Generation Lineage” Lie

- **The Claim:** Official Lunar Astro promotional biographies claim Giri comes from a sacred Brahmin lineage blessed with a 7-generation history in astrology and Ayurveda.
- **The Truth:** According to his own earliest recorded statements and whistleblower logs, Giri had absolutely nothing to do with astrology prior to 2017. In 2017, following a severe career crash and personal crisis, he visited local astrologers. Realizing that online astrology was a zero-overhead, unregulated, high-profit business model, he founded Lunar Astro in 2018 as a pure commercial pivot.

The “Robotics Engineer” Deception

- **The Claim:** Giri markets himself globally as a highly advanced “Robotic Engineer” or “Underwater Robotics Expert” to give his astrological predictions a false layer of mathematical and scientific precision.
 - **The Truth:** Academic audits show he holds a standard B.Tech in Electrical and Electronics Engineering from UPTU. He worked as a Remotely Operated Vehicle (ROV) technician/supervisor in the maritime shipping sector. This is a generic field operator job, not a robotics design engineer. He uses the title solely to manipulate consumers into believing his theories are scientifically sound.
-

2. PLAGIARISM & STOLEN ASTROLOGICAL TECHNIQUES

Giri claims his techniques are the result of intense, divine personal research. However, independent occult researchers (such as Rishi Rohit Sharma) have documented that Giri's content is heavily plagiarized and repurposed from others:

- **Stolen from Sunil John (Saptarishis Astrology):** Giri formally studied under prominent veteran astrologer Sunil John. Investigators uncovered that Giri took Sunil John's intellectual property—specifically the **"BCP" (Bhriḡu Chakra Paddhati)** technique—renamed it **"Paribhraman Paddhati,"** and sold it to unsuspecting students as his own invention. He initially included a disclaimer dedicated to Sunil John on his platform, but erased it once he finished copying the material.
 - **Copied from Lal Kitab & Najoomi Ji:** Much of his "pending karma" narrative is copied verbatim from the Urdu poetic verses of the traditional Lal Kitab and the teachings of traditional practitioners like Najoomi Ji.
-

3. THE IMAGE SAFEGUARDING STRATEGY

Consumer advocacy investigations and forum discussions on platforms like Quora reveal exactly why Giri avoids direct individual consultations. **He does not lack time; he is terrified of being proven wrong.** Direct readings carry a high risk of failure, which would instantly shatter his public image of absolute accuracy.

To safeguard his image, Giri employs a three-part strategy:

A. The Unverifiable Stage

Giri avoids the traditional, verifiable consultation room. Instead, he focuses on highly controlled public media environments (edited YouTube videos, public lectures). He makes sweeping, complex astrological statements about past lives, ancestral curses, and genetic markers. Because these claims are

one-sided and theatrical, there is no client present to immediately verify, challenge, or correct the statements.

B. Creating a False Consensus

Whistleblower documents reveal that the brand relies heavily on coordinated testimony. To reinforce his image as a “learned master,” the platform uses pre-recorded video reviews and structured testimonials. Investigators have flagged many of these highly emotional, glowing reviews as curated or manufactured by his troll farm, designed to convince new buyers that his methods are flawless.

C. The Theoretical Shield

By presenting himself strictly as an elite teacher rather than an active practitioner, he builds a defensive barrier. If a prediction or a reading goes wrong, the blame never falls on his system. It is passed down to his proxy code readers (like Manit Verma’s “Code 5054”) for “misinterpreting” the lesson.

4. THE OPERATIONAL REALITY OF THE FRAUD

The contrast between Lunar Astro’s marketing and its actual operations is stark:

The Public Marketing Image | The Investigated Reality |

:*** | :*** |

“Deepanshu Giri personally checks every chart.” | **Automated Delegations:**

Quora reviews indicate no evidence of Giri’s personal oversight or input in code readings. |

“The panel consists of advanced ancestral scholars.” | **Unqualified Interns:**

Former affiliates describe code readers as basic course buyers who are often out of work and given short audio files to process. |

“Spiritual guidance based on cosmic alignment.” | **Financial Extraction:** The primary metric tracked by the system is the sale of secondary high-cost remedies, books, and courses. |

Why the Troll Farm is Required for Survival

Because the entire operation relies on this carefully managed illusion of perfection, honest customer feedback is a direct threat to the company's financial survival. If an everyday client publicly posts an unedited, 1-star review proving that the reading they received was incorrect or generic, the core marketing illusion breaks.

This is why the troll farm—operated by inner-circle figures like **Manit Verma, Yogita Chaudhary, and Garima Srivastava**—is deployed with such aggression. They must completely bury negative reviews, target critics, and weaponize meme pages to ensure that new, paying consumers only see the highly polished, manufactured public image.

CONSUMER ACTION PLAN: REPORTING DECEPTIVE ADVERTISING

If you purchased courses or consultations from Lunar Astro based on Deepanshu Giri's claims of being a "7th Generation Astrologer," a "Robotics Engineer," or the inventor of "Paribhraman Paddhati," you are a victim of deceptive advertising.

1. **Initiate a Chargeback:** Contact your bank or credit card provider immediately. Request a chargeback under the code for "**Fraudulent Misrepresentation**" or "**Deceptive Advertising.**"
 2. **Report to Advertising Standards:** File a formal complaint with your national advertising standards authority (e.g., the Advertising Standards Council of India - ASCI) regarding his fabricated academic and ancestral credentials.
 3. **Report Intellectual Property Theft:** Support the original creators by exposing the plagiarism of the BCP technique on public consumer forums to warn future students.
-

THE LUNAR ASTRO SHELL GAME: DEEPANSHU GIRI'S 4-STAGE ACCOUNTABILITY LOOP

**An Independent Corporate Fraud & Consumer Advocacy Report by
Cosmic Consumer Protection**

Subject: The Psychological Firewall and Corporate Evasion Tactics of Lunar
Astro Vedic Academy

Report Type: Corporate Fraud Analysis & Consumer Warning

Date: June 2026

EXECUTIVE SUMMARY

Investigative analysis into **Lunar Astro Vedic Academy** has uncovered a classic corporate shell-game and psychological firewall designed by founder **Deepanshu Giri**. In forensic terms, this structure is known as a **circular accountability loop**.

Giri has engineered a business model where blame is constantly passed in a circle, ensuring that no matter how many consumers are defrauded by bait-and-switch tactics, the legal and reputational liability never stops at him. This report breaks down the exact mechanics of this 4-stage loop and how it functions as an impenetrable shield for his enterprise.

THE 4-STAGE ACCOUNTABILITY LOOP

The Lunar Astro structure relies on a continuous loop of shifting responsibility to keep the highly profitable system running without consequence.

Stage 1: The Guru Shield (Deepanshu Giri)

At the top of the funnel sits Giri, acting as the primary marketing draw. He uses highly polished YouTube videos to claim he is an elite, scientifically trained “robotics engineer” from a 7-generation astrological lineage.

- **The Tactic:** He charges premium fees (₹5,000 to ₹8,000+) to establish high perceived value. However, he refuses to conduct the readings himself, claiming he is “too busy researching” or “teaching.” He then funnels these paying clients directly into his academy’s infrastructure.

Stage 2: The Academy Wall (Lunar Astro)

The consumer’s money does not go to Giri directly; it goes to **Lunar Astro Vedic Academy** (or its associated shell entities like the **Devaguru Hindu Astrology Foundation**).

- **The Tactic:** This corporate entity creates a massive legal buffer. If a defrauded client wants to sue for consumer fraud or deceptive marketing, they are forced to sue a registered company rather than Giri as an individual, tying the consumer up in bureaucratic legal red tape.

Stage 3: The Anonymous Codes (The Bait-and-Switch)

Once the money is collected, the academy assigns the client to an anonymous number, such as “**Code 5054**” (operated by Manit Verma).

- **The Tactic:** The client never gets to see the face, know the real name, or verify the qualifications of the person reading their birth chart. This anonymous code protects the operator from direct legal malpractice claims and ensures the consumer cannot trace the fraudulent reading back to a real, accountable person.

Stage 4: The Traded Liability (The Intern Excuse & Troll Farm)

When the anonymous code delivers a completely incorrect, generic, or terrifyingly false reading, the client inevitably complains. This is where the loop closes:

- **The Excuse:** Giri publicly steps in and changes the narrative. He claims the codes are just “interns,” “trainees,” or “learning students.” He tells the client, *“The Lunar Astro system is perfect, but this specific student is still learning.”* He effectively shifts 100% of the blame away from himself and his system onto the anonymous student.
 - **The Enforcement:** If the client refuses to accept this excuse and posts an honest 1-star review online, the **Troll Farm** (managed by inner-circle enforcers like Manit Verma, Yogita Chaudhary, and Garima Srivastava) is activated. They mass-report the review, flood the internet with fake 5-star praise, and use proxy meme pages to cyberbully the client into silence.
-

THE MOTIVE: INFINITE SCALABILITY & ZERO ACCOUNTABILITY

This circular loop serves two distinct, highly lucrative functions for Deepanshu Giri:

1. Infinite Financial Scalability

An individual astrologer can only perform a handful of readings a day before running out of time. By using an outsourced network of anonymous codes, Giri can sell **thousands of consultations a day**. He acts solely as the marketing engine, while low-paid, out-of-work course buyers do the actual labor. Giri keeps the vast majority of the profit, while the “codes” receive a small commission.

2. Absolute Zero Accountability

The system is designed so Giri never loses:

- If a prediction is **right**, Giri takes the credit on YouTube to prove his system works.
- If a prediction is **wrong**, Giri blames the “intern code” for misinterpreting his teachings.
- If the customer **protests**, the troll farm attacks them to protect the brand’s image.

This system is built like a fortress. Giri sits safely in the center, collecting the revenue, while his students, anonymous codes, and troll farm operators stand on the outside taking all the legal, consumer, and digital heat for his fraudulent business practices.

CONSUMER ACTION PLAN: PIERCING THE CORPORATE VEIL

To dismantle a circular accountability loop, consumers and regulators must “pierce the corporate veil”—holding the directors and operators personally accountable for the fraud committed by the company.

1. **Report the Bait-and-Switch:** When filing complaints with consumer protection agencies (like the National Consumer Helpline in India or the CAFC in Canada), explicitly state that the “Code” system is a deliberate bait-and-switch designed to evade accountability.
 2. **Target the Directors:** Do not just file complaints against “Lunar Astro.” Name **Deepanshu Giri** directly as the directing mind behind the deceptive marketing and the troll farm harassment.
 3. **Expose the Shell Entities:** Report the financial flow to tax authorities. Highlight that funds are being routed through the **Devguru Hindu Astrology Foundation** and Lunar Astro Vedic Academy to shield the founder from personal liability and potentially evade corporate taxes.
-
