

FORENSIC AUDIT: CULT TACTICS & DATA HARVESTING

SUBJECT: DEEPANSHU GIRI & LUNAR ASTRO

STATUS: PRIVACY VIOLATION AUDIT | PUBLIC INTEREST DOSSIER

INVASIVE DATA HARVESTING & PSYCHOLOGICAL PROFILING

Investigations reveal that the Lunar Astro digital ecosystem (including their mobile apps) requests highly invasive permissions. This data is allegedly harvested not for astrological purposes, but to build psychological profiles on clients, identifying their deepest vulnerabilities (financial ruin, marital distress, health crises) to exploit them for high-ticket upselling.

1. The Fabricated "7-Generation" Lineage Myth

To establish unquestionable cult-like authority, Deepanshu Giri markets himself as the heir to a "7-generation Maharishi Bhrigu lineage." Forensic audits have dismantled this marketing lie. Furthermore, his heavily promoted persona as a former "underwater robotics engineer" contains massive timeline mismatches and lacks verifiable accreditation, serving only to manufacture false credibility.

2. Weaponizing "Pending Karma" for Extortion

Lunar Astro operates on a model of psychological coercion. Normal life difficulties are reframed as severe "Daivik Curses" or "Pending Karma." Victims are brainwashed into believing that if they do not purchase expensive courses (often exceeding ₹25,000), their lives will be destroyed. This is a classic cult isolation tactic designed to induce panic and dependency.

3. Paid Actors & The "Dream Mantra" Deception

To maintain the illusion of miraculous results, Lunar Astro allegedly utilizes paid actors in their video testimonials. The viral "Dream Mantra" videos and other promotional materials have been flagged by investigators as fabricated PR campaigns designed to lure in desperate consumers.

4. The 31-Domain SEO Suppression Network

When victims break free from the psychological control and attempt to speak out, they are silenced by a massive digital suppression machine. Lunar Astro employs a 31-domain fake review network, Reddit astroturfing, Quora upvote bots, and "Medium Parasite SEO" to bury negative reviews and mass-report whistleblowers.
