THE BUSINESS MODEL OF FEAR

Deepanshu Giri's marketing strategy relies heavily on broadcasting apocalyptic predictions—wars, tsunamis, and financial collapses—across YouTube and podcasts. This triggers mass anxiety among his followers, who are then urged to book a consultation to see how the "global crisis" will affect their personal chart. Once in the funnel, they are sold expensive gemstones and pujas as protective remedies. This report tracks the reality of those predictions.

The Metaverse Financial Disaster

Deepanshu Giri frequently positions himself as an expert in financial astrology, advising followers on market trends based on planetary transits. His most disastrous public prediction occurred in 2022 regarding the Metaverse.

THE CLAIM (MAY 2022)

"Buying Property in Metaverse Can Make You a Lot of Money"

In a public Medium article, Giri stated: "Since Rahu has left Taurus and moved to Aries so what is going to happen now is you will suddenly hear this term a lot- Metaverse, Digital land, Online world and buying property in metaverse can make you lot of money, If you want to dig in go ahead and start working in it..." THE REALITY

90%+ Loss of Value

Shortly after this prediction, the Metaverse real estate market completely collapsed. Virtual land values plummeted by over 90%. Followers who took this "astrological financial advice" lost nearly their entire investment. Lunar Astro takes zero responsibility for financial losses resulting from their predictions, quietly ignoring the failure while continuing to sell financial astrology courses.

The 2026 Doomsday Predictions

To maintain a constant state of anxiety among his audience, Giri makes sweeping, apocalyptic predictions. These are designed to be vague enough to claim accuracy if anything happens, but terrifying enough to drive immediate consultation bookings.

THE UNPOLITICS PODCAST (OCT 2025)

Tsunamis, Wars, and Political Collapse

During a highly publicized podcast, Giri made several extreme predictions:

- 1. A "major war-like situation" with Pakistan in 2030.
- 2. A "tsunami threat on India's eastern coast by early 2026."
- 3. A "crisis for the BJP-led central government between mid-2025 and mid-2026." [2]

THE HINDSIGHT BIAS TRICK

How Lunar Astro Manipulates Their Track Record

Lunar Astro uses a "Shotgun Approach"—making dozens of vague predictions across multiple platforms. When a prediction fails (like the Metaverse), they silently delete comments asking about it. When a major world event happens, they find a vague past statement, retro-fit it to the event, and use their troll farm to flood Quora and Reddit with posts praising the "accurate" prediction. Do not buy into the fear.
