EXHIBIT A — ILLEGAL MEDICAL CLAIMS

EXHIBIT A-1: Autism & DNA Manipulation

Source: Lunar Astro website, LinkedIn public profile, YouTube Shorts [1]

Deepanshu Giri has **publicly and commercially** claimed that:

- Chanting specific mantras **activates phosphate molecules in human DNA** to cure Autism
- Autism-related challenges are caused by "karmic and planetary combinations"
- Non-medical interventions (e.g., storing water in conch shells for autistic children to drink) can address developmental difficulties [2]
- Astrological remedies can help children with speech delay "get rid of the issues"

Regulatory Breach: Section 3 & 4 of the Drugs and Magic Remedies (Objectionable Advertisements) Act, 1954. Making curative claims for a condition like Autism without medical qualification constitutes illegal medical advertising [3].

EXHIBIT A-2: Cancer Diagnosis via Astrology

Source: lunarastro.org, "Cancer Combinations & Timing of Events Guide" [1]

Deepanshu Giri has published commercially monetized material claiming to:

- **Diagnose the presence of cancer** based on the planetary placement of Rahu
- **Predict the timing of cancer events** using his proprietary "Kaal Chakra" system
- Track and evaluate malignant disease outcomes through astrological methods

Regulatory Breach: Claiming to diagnose, predict, or treat malignant disease without a medical licence is a direct criminal violation of the Drugs and Magic Remedies Act and the Clinical Establishments Act [3].

EXHIBIT A-3: Heart Disease — The "Molecular Hydrogen" Claim

Source: Deepanshu Giri's official LinkedIn profile [1]

Giri has claimed to have cured an **80-year-old man's heart condition** by prescribing "Molecular Hydrogen" based on the planetary placement of Jupiter — with no medical basis, no clinical trial, and no medical qualification.

EXHIBIT A-4: Meniere's Disease — The Fasting Fabrication

Source: *Rituals of Happy Soul* (published case study, Page reference: Cardiologist case) [4][5]

The book *Rituals of Happy Soul* presents as a **verified success story** the claim that Dr. Subbharao Chakraborty, a cardiologist suffering from Meniere's Disease for 10 years (chronic tinnitus, vertigo, vomiting), was **completely healed** by simply fasting on the 11th lunar day — as prescribed by Deepanshu Giri.

This claim is presented in a commercially sold publication to build credibility and drive consultation sales. No independent medical verification exists.

EXHIBIT B — THE "CODE 5007" BAIT-AND-SWITCH FRAUD

Mechanism of Fraud:

STEP 1: Consumer sees Deepanshu Giri on YouTube – builds trust over months

STEP 2: Consumer books a premium consultation (₹8,000 – ₹50,000)

→ Booking page implies/promises a session with Deepanshu Giri personally

STEP 3: Consumer is SECRETLY routed to an anonymous junior student

→ Student identified only as "Code 5007", "Code 5009", "Code 5027" etc.

STEP 4: Generic, copy-paste reading delivered. No name. No credentials. No accountability.

STEP 5: Consumer complains → GHOSTED. No refund. No response.

STEP 6: Consumer threatens public complaint → INTIMIDATED (see Exhibit D)

Evidence: Multiple independent consumer reports and forensic investigations confirm this pattern [1][6][7]. Trustpilot, MouthShut, and ConsumerComplaints.in all carry documented victim accounts [8][9].

EXHIBIT C — PLAGIARISM & STOLEN CURRICULUM

Senior astrology students who paid up to ₹2,00,000 for Lunar Astro courses have confirmed that Deepanshu Giri's flagship techniques — including the heavily marketed "Paribhraman Paddhati" — are **not original inventions**. They are directly copied from the BCP method and the work of respected teachers such as Sunil John [9][10].

Giri repackages freely available or cheap knowledge under new names and sells it to emotionally vulnerable students at exorbitant prices, concealing the true source material behind NDAs and institutional barriers.

EXHIBIT D — EXTORTION, THREATS & VICTIM HARASSMENT

When consumers request refunds or attempt to publish negative reviews, Lunar Astro's response follows a documented escalating intimidation pattern [11]:

Stage	Tactic
Stage 1	Refund request silently ignored; all channels go dark
	Consumer told they have "dark energy" and "pending karma"

Stage	Tactic
Stage 2	
Stage 3	Threats that complaining publicly will bring karmic destruction upon their family
Stage 4	Black magic threats issued to silence the victim
Stage 5	Troll farm mass-reports victim's social media posts for removal
Stage 6	Private family photos (including children's photos) stolen and turned into derogatory memes
Stage 7	Victims threatened with Cyber Cell tracking if they persist

"When I emailed asking for a refund, they said I had 'dark energy' and that if I complained publicly, my family would suffer karmic destruction. This is extortion, not astrology." — Verified victim testimony [11]

EXHIBIT E — THE 31-WEBSITE SEO COVER-UP NETWORK

Digital forensic investigation has revealed that Lunar Astro operates a network of **at least 31 websites** specifically designed to bury consumer complaints in search engine results [1][10]. These sites:

- Push fake 5-star review pages to the top of Google results
- Drown out genuine negative reviews on Quora, Reddit, and Medium

- Redirect searches for "Lunar Astro scam" to Giri-controlled positive content
- Coordinate mass-reporting of authentic negative content for platform removal

This constitutes a deliberate, organised campaign to obstruct consumer information rights and suppress evidence of fraud.
