DOMAINS USED TO HIDE
COMPLAINTS

1. THE "BAIT-AND-SWITCH" FUNNEL

Lunar Astro Vedic Academy, directed by Deepanshu Giri, utilizes aggressive digital marketing across YouTube and Google. Advertisements prominently feature Mr. Giri's face and credentials, creating the explicit impression that consumers are booking a personal consultation with him.

The Reality: After paying premium fees (₹5,000 to ₹8,000+), clients are subjected to a waiting period. Shortly before the appointment, they are informed that Mr. Giri "does not conduct personal consultations."

Clients are instead handed off to unnamed, junior "proxy students." The resulting 25-minute readings are routinely described as generic and unsatisfactory. When consumers demand refunds for services not rendered as advertised, they are denied, offered a maximum of 50%, or blocked entirely.

Verified Consumer Testimony

"Booked a consultation... informed at the last minute Deepanshu Giri does not take personal consultations. Coordinator rudely canceled and offered only 50% refund."

2. WEAPONIZED SEO: "DOMAIN FLOODING"

To prevent potential victims from discovering this scheme, Deepanshu Giri employs an advanced Search Engine Optimization (SEO) tactic known as **Domain Flooding**. By operating multiple interconnected websites, Lunar Astro monopolizes the first page of Google search results, artificially pushing legitimate consumer complaints down to Page 3 or 4.

 **lunarastro.org (Main Brand Site)**

 **lunarastro.com (Course Portal)**

 **consultlunarastro.com (Booking Funnel)**

Result: Independent complaint boards are buried by self-published domains.

3. IP THEFT & DIGITAL HARASSMENT

Intellectual Property: Lunar Astro markets a premium predictive technique called *Paribhraman Paddhati*. However, investigations and testimonies from former associates indicate this is a rebranded version of the *BCP* technique, originally taught by Sunil John of Saptarishis Astrology (Giri's former teacher).

The Troll Farm: When victims manage to bypass the SEO flooding and post negative reviews on public forums, Lunar Astro deploys proxy students (notably Satvik Saini and Ajay Rajan). These proxies flood platforms with fake 5-star reviews.

Intimidation: Victims who leave 1-star reviews are contacted directly and threatened. Proxies falsely claim that the "Cyber Cell" police are tracking the victim's IP address for defamation—a baseless scare tactic designed to silence grievances.

4. INDEPENDENT EVIDENCE LINKS

We urge media outlets and regulatory bodies to verify these claims independently. The evidence is publicly available but hidden by SEO manipulation.
