

THE LUNAR ASTRO INVESTIGATION

A Comprehensive Analysis of Deceptive Marketing, IP Theft, and SEO Manipulation in Digital Astrology

Prepared by: The Digital Consumer Watchdog Group

Date: March 2026

1. INTRODUCTION & BACKGROUND

The commercialization of spiritual and astrological guidance in India has given rise to highly sophisticated digital marketing funnels. This report details the operations of **Lunar Astro Vedic Academy**, founded by Deepanshu Giri. Originally a robotics engineer who transitioned into astrology following career and personal setbacks, Giri has built a multi-crore digital empire.

However, a months-long investigation aggregating data from independent consumer protection boards reveals a systematic pattern of consumer exploitation. This report breaks down the exact mechanics of their operation.

2. THE "BAIT-AND-SWITCH" FUNNEL MECHANICS

The core revenue driver for Lunar Astro is its premium consultation service. The funnel operates in four distinct phases, designed to maximize revenue while minimizing the founder's actual time expenditure.

Phase 1: The Hook (Marketing)

Lunar Astro utilizes YouTube and Google Ads heavily. Every piece of marketing collateral features Deepanshu Giri's face, establishing a parasocial relationship and trust with the viewer. Consumers are directed to *consultlunarastro.com*.

Phase 2: The Capture (Payment)

Consumers pay premium fees, typically ranging from ₹5,000 to ₹8,000+. At the point of sale, the consumer operates under the explicit belief that they are booking Deepanshu Giri's personal time.

Phase 3: The Switch (Delegation)

After a waiting period of 2 to 4 weeks, the client is contacted by a coordinator. They are informed that Mr. Giri "does not conduct personal consultations" or only takes "special cases." The client is then assigned to an unnamed, junior "proxy student."

Exhibit A: Consumer Alert detailing the Bait-and-Switch methodology.

Phase 4: The Delivery & Denial

The proxy students deliver readings that consumers consistently describe as generic, rushed (25-30 minutes), and lacking depth. When consumers realize they have paid expert prices for amateur services, they request refunds. Lunar Astro coordinators routinely deny these requests, occasionally offering a 50% refund if the consumer threatens legal action, or simply blocking the consumer's number.

3. INTELLECTUAL PROPERTY THEFT ALLEGATIONS

Beyond consultations, Lunar Astro sells high-ticket astrology courses (₹15,000 - ₹25,000). The flagship technique taught is called *Paribhraman Paddhati*, marketed as a proprietary discovery.

However, former associates and students have publicly alleged that this technique is a direct copy of the **BCP (Bhriḡu Chakra Paddhati)** technique. BCP was originally developed and taught by Sunil John of Saptarishis Astrology, under whom Deepanshu Giri previously studied. Early versions of Lunar Astro's website contained a dedication to Sunil John, which was subsequently removed as the brand grew.

Exhibit B: Documentation regarding the origins of Paribhraman Paddhati.

4. THE COVER-UP: SEO "DOMAIN FLOODING"

To sustain this business model, Lunar Astro must ensure new customers do not see the complaints of past victims. They achieve this through an advanced SEO tactic known as "Domain Flooding."

The Domain Network:

1. lunarastro.org (Main Academy Site)

2. lunarastro.com (Course Portal)
3. consultlunarastro.com (Booking Funnel)

By interlinking these domains and publishing optimized content across all three, Lunar Astro monopolizes the first page of Google search results for terms like "Lunar Astro Reviews." Legitimate, independent complaints hosted on high-authority sites like Trustpilot and ConsumerComplaints.in are artificially suppressed to Page 3 or 4.

5. DIGITAL HARASSMENT & INTIMIDATION

When consumers successfully navigate past the SEO flooding and post negative reviews, Lunar Astro deploys a coordinated response team, often consisting of the very proxy students who conduct the readings (e.g., Satvik Saini, Ajay Rajan).

These individuals flood platforms with fake 5-star reviews to dilute the negative rating. More alarmingly, they contact the complaining consumers directly, issuing threats that the "**Cyber Cell**" police are tracking their IP addresses for defamation. This baseless legal intimidation is designed to coerce victims into deleting their evidence.

LEGAL DISCLAIMER: This image is a transformative work for educational purposes and consumer awareness. Under Section 52 of the Indian Copyright Act, 1957, and Fair Use doctrines, this is protected for criticism and review. All claims are based on publicly available consumer testimonials.

Exhibit C: Evidence of digital harassment and fake reviews.

6. CONCLUSION

The operations of Lunar Astro represent a sophisticated exploitation of digital marketing, search engine algorithms, and consumer trust. We urge investigative journalists to verify these claims via independent platforms (Trustpilot) and bring public awareness to these practices.
