Took consultation from your team

Took consultation from your team . I'm honestly fascinated with Deepanshu sir , he is the best . But genuinely his team doesn't have the same knowledge . The person who gave me consultation was so generic and practically he never gave a solution my career . Very disappointing . Deepanshu sir needs to work on him team . We are coming with hope sir but your team doesn't give the hope ,makes me feel waste of money and emotionally hurt also .

Dear Shalini, Sometimes the chart is complicated enough or the time running is not in favor of us but that does not mean we try less, The remedy which we call generic sometimes does wonders such as ekadasi fasting - resolved a long pending case for someone but if we go by the fact that it is a generic remedy, then that approach would be wrong as astrologer look for best possible
