

THE 14-CRORE SHELL GAME

HOW LUNAR ASTRO HIDES BEHIND OPCS & "CHARITY" FOUNDATIONS

DIRECTOR DIN: 08569501 (DEEPANSHU GIRI) | MULTIPLE ENTITIES DETECTED

You thought you were paying for spiritual guidance. You are actually funding a highly sophisticated corporate labyrinth. A forensic dive into the Ministry of Corporate Affairs (MCA) reveals that Deepanshu Giri is playing a massive shell game—shifting between One Person Companies (OPCs), Private Limiteds, and tax-exempt "Charity" Foundations across different state jurisdictions.

ENTITY 1: THE "ONE PERSON" CASH COW

LUNAR ASTRO VEDIC ACADEMY (OPC) PRIVATE LIMITED

CIN: U80902UP20190PC121521 / U80902UP2019PTC121521

Incorporation: 23 Sep, 2019

Jurisdiction: Uttar Pradesh (Ghaziabad Ghost Office)

Reported Revenue: ₹14.9 CRORE INR

Paid-Up Capital: ₹20,000 INR

△ FORENSIC RED FLAG: THE OPC LOOPHOLE

One Person Companies (OPCs) were designed by the Indian Government for small-scale sole proprietors. Generating a massive ₹14.9 Crore in revenue while maintaining a microscopic paid-up capital of just ₹20,000 is a glaring anomaly. The company has actively played with its registration status (OPC vs PTC) to manipulate compliance thresholds, all while operating out of a 1st-floor residential flat in Nand Gram.

ENTITY 2: THE "CHARITY" DONATION FUNNEL

DEVGURU HINDU ASTROLOGY FOUNDATION

CIN: U80902UR2022NPL014019

Incorporation:	13 May, 2022
Jurisdiction:	Uttarakhand (UR)
Entity Type:	Section 8 (Non-Profit / Trust)

⚠ FORENSIC RED FLAG: THE TAX-EXEMPT FUNNEL

Why does a highly profitable astrology business need a Section 8 Non-Profit Foundation? Deepanshu Giri constantly advises his followers to perform "remedies" by donating money to widows, animals, and the homeless. By establishing the **Devguru Hindu Astrology Foundation**, he has created a tax-exempt vehicle to funnel these "karmic donations" directly into an entity he controls. This is a textbook method for washing commercial revenue through a charitable front.

THE JURISDICTIONAL HOPPING GIMMICK

Notice the CIN numbers. The main commercial entity is registered in **Uttar Pradesh (UP)**. The charity foundation is registered in **Uttarakhand (UR)**.

By splitting his entities across different state registrars (ROC Kanpur vs. ROC Uttarakhand), Giri creates a jurisdictional nightmare for auditors and tax authorities. If the UP commercial entity gets flagged for its absurd ₹14.9 Cr revenue vs. ₹20k capital ratio, the funds can be safely shielded in the Uttarakhand non-profit trust.
