Before writing My feedback about Lunar Astro, I want to say I am surprised to see so many false accusations against Deepanshu Giri sir and Lunar Astro. Deepanshu Giri sir takes all the false allegations against him very lightly. He concentrates only on his own work, he does not take any stringent action against them. If you look around many people who are not able to fight with his knowledge, have started humiliating Deepanshu Ji in a dirty way. Knowing all this, Deepanshu Ji is only working to spread the beauty of astrology among the Astro learners, without saying any bad things to the haters. This is my biggest Lunar Astro Reviews for Deepanshu Giri sir. If I had been in his place, I would have complained to the police and filed a defamation suit. But he did not do so, because he is a very peace-loving person and a proper gentleman. When many of his competitors lack in knowledge to compete with him, they started backbiting. It is a natural tendency nowadays, if you cannot compete with others start defaming the person. Those who are doing this, are showing their own stupidity.

I understand how terrible jealousy can be, how degrading it can be to others, as people around him are trying to humiliate Deepanshu Sir without getting acquainted with his Knowledge of Astrology.

One of my friends has registered for their course and is really pleased with the course content and he gave his Lunar Astro Reviews also. I'm not sure why people start defaming others like this. I've also heard people say things like Lunar Astro is doing this and that, Deepanshu Giri is this and that, and I'm not sure what they get out of it. One of the best places to learn astrology is Lunar Astro. They are giving great services. So, stop commenting such baseless comments on Deepanshu Giri. I don't understand what you guys get by condemning a man like Deepanshu Giri Ji, who is changing the lives of thousands of people through his knowledge of Astrology and getting thousands of positive Lunar Astro Reviews for that.
