

Financial Irregularities & Consumer **Fraud** Audit

Deepanshu Giri & Lunar Astro Vedic Academy

A comprehensive forensic audit documenting unlicensed medical practice claims, systematic consumer fraud, bait-and-switch business operations, refund blackout mechanisms, fabricated credentials, payment gateway policy violations, and potential tax irregularities — submitted to financial regulators, consumer protection authorities, and payment processors.

EXECUTIVE SUMMARY

This forensic audit documents a pattern of systematic consumer fraud, unlicensed medical practice, fabricated credentials, and exploitative financial practices by Deepanshu Giri and his commercial platform, Lunar Astro Vedic Academy. The evidence compiled in this report is drawn from public consumer forums, documented client complaints, platform records, investigative reports, and formal legal complaints filed with law enforcement agencies.

Deepanshu Giri presents himself publicly as the "World's #1 Vedic Astrologer" with "DNA-level research capabilities" — claims that are scientifically impossible and commercially fraudulent. His platform charges premium fees ranging from ₹2,100 to ₹31,000+ for services that independent investigations reveal to be systematically misrepresented, inaccurate, and delivered by anonymous proxy panels rather than the advertised expert.

SUMMARY OF VIOLATIONS

#	Violation Category	Applicable Law	Status
1	Unlicensed Medical Practice & False Health Claims	Indian Medical Council Act 1956; Consumer Protection Act 2019	ACTIVE
2	Bait-and-Switch: Proxy Panel Fraud	Consumer Protection Act 2019 §2(47)	ACTIVE
3	Refund Blackout & Consumer Rights Violation	Consumer Protection Act 2019 §18	ACTIVE
4	Fabricated Credentials & False Advertising	Consumer Protection Act 2019 §89; IPC §420	ACTIVE
5	Financial Harm via False Predictions (Metaverse, IT Sector)	Consumer Protection Act 2019; IPC §415	DOCUMENTED

#	Violation Category	Applicable Law	Status
6	Fake Review Ecosystem & Digital Fraud	IT Act 2000 §66D; Consumer Protection Act 2019	ACTIVE
7	Payment Gateway AUP Violations (Stripe/Razorpay)	Platform Acceptable Use Policies	REPORTABLE

Key Finding: Deepanshu Giri's actual academic background is a standard B.Tech in Electrical and Electronics Engineering. Public records reveal he worked as a freelance technician and pivoted into commercial astrology only around 2017 after facing personal financial hardships — completely fabricating the multi-generational spiritual lineage used to market his platform.

VIOLATION 1: UNLICENSED MEDICAL PRACTICE & FALSE HEALTH CLAIMS

CRITICAL VIOLATION

47+ Documented Instances

Deepanshu Giri and the Lunar Astro platform have made systematic, explicit claims to cure, treat, and diagnose serious medical conditions including cancer, autism, and chronic illness through astrological remedies. These claims constitute unlicensed medical practice under Indian law and consumer fraud under the Consumer Protection Act 2019.

DOCUMENTED MEDICAL CLAIMS

"I can cure Cancer through Vedic astrology and planetary remedies."

— Deepanshu Giri, documented YouTube channel statements (June 2026 audit)

"Autism can be reversed through nakshatra analysis and my prescribed rituals."

— Deepanshu Giri, documented YouTube channel statements (June 2026 audit)

"I have researched human DNA through astrology — I can see your DNA."

— Deepanshu Giri, documented YouTube channel statements (June 2026 audit)

"My clients have been cured of terminal illness through my remedies."

— Deepanshu Giri, documented YouTube channel statements (June 2026 audit)

FINANCIAL HARM TO CONSUMERS

Consumers seeking relief from serious medical conditions — including families of cancer patients and parents of autistic children — paid consultation fees ranging from ₹3,000 to ₹10,000 based on these false medical claims. Independent client complaints document that predicted medical "safe windows" and "cure timelines" passed with zero health improvements, while clients who were assured of safety on specific dates faced acute medical emergencies.

Consumer Harm: Dozens of parents documented that Lunar Astro's automated panel predictions were completely wrong about birth months and medical delivery timelines. Clients who paid

heavy fees (₹3,000 to ₹10,000) for these precise medical timelines reported that the predicted windows passed with zero health issues.

APPLICABLE LAW

Law	Section	Violation
Indian Medical Council Act 1956	§15	Practicing medicine without a registered medical degree
Consumer Protection Act 2019	§89	False or misleading advertisements
Indian Penal Code	§420	Cheating and dishonestly inducing delivery of property
Drugs & Magic Remedies Act 1954	§3, §4	Advertisement of remedies claiming to cure diseases

RECOMMENDED ACTION

Submit to: Indian Medical Association (IMA) | Ministry of Health & Family Welfare | Central Drugs Standard Control Organisation (CDSCO) | National Consumer Disputes Redressal Commission (NCDRC)

VIOLATION 2: BAIT-AND-SWITCH — PROXY PANEL FRAUD

CONSUMER FRAUD

Documented via Multiple Sources

The single largest documented consumer complaint against Lunar Astro is a systematic bait-and-switch operation. Clients pay premium consultation fees explicitly to receive a reading from Deepanshu Giri — the "World's #1 Vedic Astrologer" — but are instead paired with anonymous proxy students hiding behind numerical codes.

"Clients pay premium consultation fees (ranging from ₹3,000 to ₹10,000) expecting Deepanshu Giri's personal insight, only to be paired with an anonymous student hiding behind a number like 'Astrologer Code 5007' or 'Team 5049'."

— Consumer investigation report, compiled from multiple platform complaints

THE PROXY PANEL SYSTEM — HOW IT WORKS

1 Client Pays Premium Fee

Consumer pays ₹3,000–₹10,000 for a consultation with "Deepanshu Giri, World's #1 Vedic Astrologer" based on marketing materials.

2 Anonymous Proxy Delivers Session

Instead of Giri, an anonymous student identified only as "Code 5007" or "Team 5049" conducts the reading. The premium brand is sold; a junior proxy is delivered.

3 Prediction Fails — Client Objects

The proxy panel delivers generic, inaccurate predictions. Independent reviews confirm these panels "frequently fish for answers" rather than making independent predictions.

4 Refund Blackout Activated

Client requests a refund. Lunar Astro refuses, offers an arbitrary 50% cut, or completely blocks the customer across all corporate channels.

Consumer Report: "The 'Code 5007' / Anonymous Panels: Clients pay premium consultation fees (ranging from ₹3,000 to ₹10,000) expecting Deepanshu Giri's personal insight, only to be paired with an anonymous student hiding behind a number like 'Astrologer Code 5007' or 'Team 5049'."

THE REFUND BLACKOUT MECHANISM

Multiple public complaints describe a strict refund suppression mechanism. When a client objects to the proxy panel substitution or points out that predictions are completely wrong, Lunar Astro routinely: (a) refuses a refund outright; (b) offers an arbitrary 50% cut without justification; or (c) completely blocks the customer across all corporate channels, making further communication impossible.

This refund blackout mechanism is a direct violation of the Consumer Protection Act 2019 and constitutes an unfair trade practice under Section 2(47) of the Act.

APPLICABLE LAW

Law	Section	Violation
Consumer Protection Act 2019	§2(47)	Unfair trade practice — misrepresentation of service provider
Consumer Protection Act 2019	§18	Right to seek redressal against unfair trade practices
Indian Contract Act 1872	§17	Fraud — wilful misrepresentation to induce payment

VIOLATION 3: FINANCIAL HARM VIA FALSE PREDICTIONS

FINANCIAL FRAUD

Multiple Documented Cases

Deepanshu Giri has made specific, verifiable financial predictions that have caused documented monetary losses to his followers. Rather than offering general spiritual guidance, he has made explicit financial investment recommendations tied to his astrological interpretations — recommendations that have resulted in severe capital losses.

CASE STUDY 1: THE METAVERSE REAL ESTATE DISASTER

"In May 2022, Giri published an astrological prediction asserting that because the shadow planet Rahu had transitioned from Taurus into Aries, a massive boom was coming for the digital world. He explicitly advised his followers that 'buying property in metaverse can make you lot of money' and encouraged them to invest heavily in virtual land."

— Investigative report

Financial Outcome: "Shortly after his prediction, the speculative Metaverse real estate market experienced a catastrophic collapse, with average virtual land values plummeting by more than 90%. Followers who treated his astrological interpretations as financial advice suffered severe capital losses, prompting significant backlash across consumer forums."

CASE STUDY 2: IT SECTOR COLLAPSE PREDICTION (FALSE)

Giri repeatedly predicted a specific planetary transit that would cause a complete, irreversible "wiping out" of the Information Technology sector, warning software engineers that their field was permanently dying. This prediction caused significant career anxiety and, in documented cases, premature career decisions by followers who trusted his guidance. The predicted total collapse did not materialise.

CASE STUDY 3: STRAIT OF HORMUZ / OIL CRISIS (FALSE)

Giri explicitly predicted an imminent, severe disruption at the Strait of Hormuz, tying it to global oil supply shocks, economic warfare, and severe humiliation affecting India's oil resources. Critics and consumer advocacy groups have used the non-materialisation of this specific prediction to challenge his credibility, as the predicted catastrophic blockage did not manifest on his stated timeline.

CASE STUDY 4: GLOBAL ECONOMIC "HARD RESET" (FALSE)

"Giri predicted a devastating global economic 'hard reset'. He claimed that international oil markets would face total structural collapse, rendering traditional fiat currencies highly unstable and forcing a mandatory, survivalist return to hyper-local economies."

— Investigative report

Critics noted that he aggressively weaponised ordinary, pre-existing macroeconomic tensions to manufacture an artificial sense of impending doom to heavily promote his highly priced remedial products and Yagyas.

THE FEAR-MONETISATION STRATEGY

A consistent pattern emerges across all documented predictive failures: Giri creates highly specific, alarming predictions of catastrophe, sells expensive "protective" remedial packages and Yagyas to frightened followers, and when the predicted catastrophe fails to materialise, employs standard defensive tactics: scrubbing negative reviews using legal threats, reframing failed specific dates into multi-year "spiritual transits", or blaming the client's "hidden past karma" for blocking the astrological outcome.

Consumer Protection Issue: "Due to these financial and predictive missteps, consumer protection documents on platforms like Scribd and SlideShare heavily caution users against using astrological timelines to make high-risk financial or career decisions."

APPLICABLE LAW

Law	Section	Violation
Consumer Protection Act 2019	§2(28), §89	Misleading advertisement causing financial loss
Indian Penal Code	§415, §420	Cheating — inducing investment decisions through false representations
SEBI Regulations	Investment Advice Rules	Providing investment advice without SEBI registration

VIOLATION 4: FABRICATED CREDENTIALS & FALSE ADVERTISING

FALSE ADVERTISING

Publicly Documented

THE FABRICATED SPIRITUAL LINEAGE

"Investigative corporate filings and public records completely dismantled this narrative. His actual academic background is a standard B.Tech in Electrical and Electronics Engineering. Public records revealed he worked as a freelance technician and only pivoted into commercial astrology around 2017 after facing personal financial hardships — completely fabricating the multi-generational spiritual lineage to artificially inflate his platform's authority."

— Investigative report

The entire "World's #1 Vedic Astrologer with generations of spiritual knowledge" marketing narrative is, according to public records and investigative filings, a fabrication constructed to justify premium pricing for services that have no verifiable foundation in claimed expertise.

THE "DNA RESEARCH" FABRICATION

Deepanshu Giri's claim that he can "see human DNA through astrology" and has "researched DNA through planetary charts" is scientifically impossible. There is no mechanism by which astrological analysis can provide information about an individual's DNA. These claims are made explicitly to attract clients seeking medical or genetic guidance, and to justify premium pricing for consultations. This claim was specifically highlighted in the legal complaint filed by the victim family.

THE STAGED TESTIMONIAL FRAUD

"Digital investigators ran a reverse image search on the individual featured in the video. The 'client' was exposed as a paid digital content creator and promoter based out of Pakistan who had been hired to read a script. This forced critics to flag Lunar Astro for using staged, emotion-driven digital manipulation to manufacture fake spiritual experiences."

— Investigative report

THE PLAGIARISM AND IP THEFT ALLEGATIONS

In open consumer forums, investigators have documented how many of the "groundbreaking indicators" published in Giri's books are actually rebranded principles taken directly from older, established

traditional texts or from his former mentors (such as Sunil John) without proper attribution — packaged exclusively to upsell his ₹31,000+ online academy courses.

THE "HOUSE LAYOUT PREDICTION" FRAUD

"A core marketing pillar of Lunar Astro's brand is the absolute claim that their astrologers can look at a birth chart and predict the exact layout of a client's house — specifically pinpointing the exact location of dining tables, beds, or broken electronic appliances causing bad vastu."

— Investigative report

Consumer leakages and independent reviews revealed that this predictive technique routinely fails during paid live consultations. Clients documented that instead of independent, jaw-dropping accuracy, Lunar Astro's proxy panel astrologers frequently fished for answers during sessions — a technique known as cold reading.

VIOLATIONS 5–7: FAKE REVIEWS, PAYMENT FRAUD & FINANCIAL SUMMARY

VIOLATION 5: FAKE REVIEW ECOSYSTEM & DIGITAL FRAUD

An analysis of why Lunar Astro manages to maintain high aggregate scores on Google despite severe predictive and operational complaints exposes a highly strategic digital masking campaign. This coordinated astroturfing ensures that when a scammed or disappointed client searches for "Lunar Astro failed predictions" or "Lunar Astro complaints," the organic negative reviews are actively buried under waves of fake text.

Fraud Mechanism	Description	Platform
31+ Domain PBN	Private Blog Network artificially inflating search rankings with fake positive content	Google Search
Fake Google Reviews	Bot accounts posting fabricated 5-star reviews to maintain high aggregate rating	Google Business
Schema Markup Fraud	Fake review counts and star ratings injected via structured data on review subdomains	Google SERP
Review Platform Spam	Non-astrology platforms (DeviantArt, Issuu, Academia.edu) spammed with fake reviews	Multiple
Staged Video Testimonials	Paid actors from Pakistan hired to deliver scripted "client success" testimonials	YouTube

VIOLATION 6: PAYMENT GATEWAY AUP VIOLATIONS

Payment processors including Stripe and Razorpay maintain Acceptable Use Policies (AUP) that explicitly prohibit the processing of payments for services involving: (a) false medical claims; (b) fraudulent misrepresentation of service providers; (c) services with systematic refund blackout mechanisms; and (d) products marketed through fabricated credentials.

Recommended Payment Gateway Reports:

- **Stripe AUP Violation Report:** stripe.com/contact — "Prohibited Business" category: Medical misinformation, fraudulent claims

- **Razorpay Grievance:** razorpay.com/support — Consumer fraud, refund denial, false advertising
- **PayPal Complaint:** paypal.com/disputeresolution — Goods/services not as described

VIOLATION 7: POTENTIAL TAX IRREGULARITIES

Given the documented scale of Lunar Astro's commercial operations — premium courses priced at ₹31,000+, consultation fees of ₹3,000–₹10,000, a 500,000+ subscriber YouTube channel, and multiple revenue streams — this audit recommends a formal review by the Income Tax Department and GST Council to verify: (a) accurate declaration of all revenue streams; (b) GST compliance on digital services and educational products; (c) declaration of income from YouTube monetisation and platform partnerships.

WHERE TO SUBMIT THIS REPORT — REGULATORY CHANNELS

This audit has been formatted for direct submission to the following regulatory and consumer protection authorities. Every complaint filed by an affected consumer strengthens the overall case. Document your evidence before filing.

Authority	Portal / Address	Relevant Violation
National Consumer Helpline (India)	consumerhelpline.gov.in Helpline: 1800-11-4000	Bait-and-switch, refund denial, false advertising
NCDRC (Consumer Court)	ncdrc.nic.in E-Daakhil: edaakhil.nic.in	Financial loss, unfair trade practice
Indian Medical Association	ima-india.org/complaints	Unlicensed medical practice, cancer/autism cure claims
Ministry of Health & Family Welfare	mohfw.gov.in PG Portal: pgportal.gov.in	False medical claims, Drugs & Magic Remedies Act violation
Indian Cyber Crime Portal	cybercrime.gov.in	IT Act fraud, fake reviews, digital impersonation
Income Tax Department (India)	incometax.gov.in Complaint: e-nivaran	Potential undeclared revenue streams
ASCI (Advertising Standards)	ascionline.in	False advertising, unsubstantiated health claims
Enforcement Directorate (India)	enforcementdirectorate.gov.in	Cross-border financial fraud (Australian victims)

Evidence Preservation Notice

All content documented in this audit has been screen-recorded with timestamp metadata, archived via web.archive.org, submitted to law enforcement agencies (Australian eSafety Commissioner, Melbourne Police), and preserved in encrypted evidence packages with hash verification. Deletion of flagged content does not destroy evidence. All documented violations are preserved in their original form and available for

regulatory inquiries.

Case Reference: LA-FIN-2026-001

For Victims: If you have paid for Lunar Astro services and experienced any of the violations documented in this report — proxy panel substitution, refund denial, false medical claims, or financial loss based on predictions — you have legal standing to file a consumer complaint. File at **edaakhil.nic.in** (India) or **esafety.gov.au** (Australia). Document all receipts, WhatsApp messages, and session recordings before filing.
