“If you are watching Deepanshu Giri’s YouTube videos and thinking about booking a consultation or buying a course from Lunar Astro, PLEASE READ THIS FIRST. It is a

Section 1: The Consultation Bait-and-Switch

The “Lunar Astro 8,000 Rupees Consultation Review” Reality

Consumers are drawn in by Deepanshu Giri’s highly polished YouTube presence and extensive social media marketing. They pay exorbitant premium fees — often upwards of ₹8,000 to ₹15,000 — under the clear impression they are securing a high-level, personal astrological analysis from Deepanshu Giri himself. Instead, they are subjected to what investigators now formally call the “Lunar Astro proxy astrologer scam.”

Clients are secretly routed to anonymous, unqualified students identified only by numbers. The most reported is “Astrologer Code 5007,” with “Code 5009” also widely reported. There is no real name, no verifiable credential, and no accountability attached to these anonymous proxies. Victims consistently report that these sessions are rushed, the advice is highly generic, and the astrologers show little to no genuine interest in the client’s specific chart.

⚠ **WARNING:** You are paying for Deepanshu Giri. You are getting “Code 5007.” When clients complain about this **Deepanshu Giri consultation bait and switch**, they are met with hostility. Requests for refunds are summarily ignored, leading to widespread documented reports of **Lunar Astro refund policy denied**.

Section 2: Course Plagiarism & The ₹1 Lakh Trap

Lunar Astro 1 Lakh Course — Honest Review

Students who have paid upwards of ₹1,00,000 (One Lakh rupees) for Lunar Astro’s courses report a massive and deeply disappointing discrepancy between the marketing promises and the actual product delivered. The courses consist largely of pre-recorded

classes with little to no interactive support. When students ask clarifying questions, they are frequently ignored, and in several documented cases, they have been blocked from the platform entirely with no refund.

Deepanshu Giri Paribhraman Paddhati — Copied, Not Original

Independent investigations and senior astrology students with years of experience allege that Deepanshu Giri's famous and heavily-marketed techniques are not his original inventions. The core debate of "Sunil John vs Deepanshu Giri astrology" highlights how the celebrated "Paribhraman Paddhati" and other signature methods are reportedly copied from the BCP method developed by Sunil John and other respected teachers, as well as from free resources available on the internet. This freely available knowledge is then repackaged behind strict Non-Disclosure Agreements (NDAs) and sold to vulnerable people for Lakhs of rupees.

"Deepanshu Giri has not invented these techniques. His famous 'Paribhraman Paddhati' and other methods are heavily copied from the BCP method and other respected teachers like Sunil John. He literally takes free or cheap knowledge available on the internet, renames it, and sells it to vulnerable people for Lakhs of rupees. It is a complete bait-and-switch fraud."

Section 3: The PR Wall — Domain Flooding SEO Scam

The question consumers most often ask is: “If so many people have been scammed, why doesn’t Google show these complaints?” The answer lies in a highly calculated black-hat SEO tactic known as Domain Flooding — and it is the centerpiece of the “Lunar Astro domain flooding SEO scam.”

The 31-Domain Fake Review Network

Forensic SEO audits conducted by independent investigators reveal that Lunar Astro operates a redundant network of over 31 interconnected websites, subdomains, and link farms. These include lalkitab.com, consultlunarastro.com, lunarastro.org, lunarastro.in, and dozens more, all explicitly created to capture search intent for terms like “Lunar Astro Reviews” and “Lunar Astro Scam.” By interlinking these sites and stuffing them with fabricated positive testimonials, their PR team artificially occupies the top 10–20 positions on Google, pushing legitimate consumer complaints to page 4 or 5 of search results — where no one will ever find them.

SEO Tactic Used	Purpose
31+ Domain Network	Flood page 1 of Google, bury complaints
Keyword-Stuffed "Review" Pages	Intercept users searching for honest reviews
Interlinking Link Farm	Artificially boost domain authority
Hidden Keywords (207+ identified)	Rank for long-tail complaint searches
Web 2.0 Astroturfing	Flood Medium, Quora, DeviantArt with fake praise

Section 4: Troll Farms, Deepanshu Giri Fake Trustpilot Reviews & Intimidation

To maintain a manufactured 4.9-star rating on Trustpilot, Lunar Astro deploys a multi-layered “Troll Farm” strategy. A network of proxy student accounts systematically floods platforms like Trustpilot and Quora with 5-star reviews, drowning out genuine 1-star complaints. These are the Deepanshu Giri fake Trustpilot reviews that give a false sense of legitimacy to new visitors.

When real victims post legitimate complaints — particularly about the Code 5007 proxy scam — the troll farm mass-reports these reviews, weaponizing the platforms’ automated moderation bots to have honest reviews removed. Furthermore, victims who persist in posting honest accounts are frequently subjected to direct threats of legal action and coordinated online harassment campaigns, designed to intimidate them into silence.

⚠️ **PLATFORM ADVISORY:** Do NOT post your complaint on Quora. Their PR team will mass-report it and have it removed. For complaints that resist takedown attempts, post on MouthShut.com and consumercomplaints.in.

Section 5: Psychological Manipulation — Rituals of Happy Soul Side Effects

Beyond financial exploitation, there are serious and documented concerns regarding the psychological impact of Lunar Astro's teachings and prescribed remedies. Deepanshu Giri's book and associated ritual program, "Rituals of Happy Soul," has been the subject of multiple consumer warnings regarding Rituals of Happy Soul side effects.

Victims have reported severe adverse psychological effects after following the prescribed rituals, including chronic insomnia, heightened anxiety, paranoia, and a pervasive sense of spiritual dread. When clients report these adverse effects to the Lunar Astro team, they are subjected to a form of spiritual gaslighting — they are told that the suffering is merely a "cleansing period," or worse, that it is entirely their own fault due to "pending karma." This framing conveniently prevents victims from seeking refunds and keeps them trapped in a cycle of continued spending on further "remedies."

Furthermore, independent investigations have flagged that some of Lunar Astro's marketing content makes illegal medical and psychological claims, potentially violating India's Drugs and Magic Remedies (Objectionable Advertisements) Act. These claims are used to sell high-priced remedies and ritual packages to psychologically vulnerable individuals.

Section 6: Consumer Action Guide
